

CALIFORNIA VS.

You can now be the judge of whether California produces the best varietals of wine. Guests will sample varietals from California along with their counterparts from other parts of the world. Think you can tell the two apart? Come test your own knowledge of California wines and learn what makes them similar to or different from other parts of the world. Please join Tasters Guild Maryland at another successful tasting in beautiful Annapolis! Wines featured at the tasting will be available for order or take out (depending on availability) from Crush at a special Tasters Guild discount.
